Fruit Tree Stocks-American Grown

APPLE SEEDLINGS—We left our seedlings in the ground until they were well matured. They are full of vitality and will give satisfaction.

We wish to call special attention to our No. 2 grade. These are very nice, smooth, straight seedlings and are very satisfactory for grafting. Some firms use them almost exclusively. We will be pleased to send samples upon request.

Root Grafts

We are still organized for this work and have a good assortment of scions on hand. Send in your orders and we will take the best possible care of them.

For list of varieties, write for our Winter Wholesale Trade List.

Apple and Crab Piece Root Grafts

Piece root grafts are made by using about six inches of scion and three and one-half inches of root. They are tongued together and securely wrapped at the union, making the entire graft about eight and one-half inches long. This style of graft we use mostly in our own plantings.

Evergreens---Transplanted

All evergreens are handled in the most careful manner, but we recommend digging with a ball of earth and burlapping. Our price for this work is 12 cents for 3 or 4 feet; 10 cent for 2 or 3 feet, 8 cents for 18 to 24 inches, and 6 cents for 12 to 18 inches.
